Design & Build Commercial

The commercial complex of the French multinational, located in Lordelo - Guimarães, was designed to accommodate, in addition to the hypermarket, a restaurant area, a D-I-Y megastore and a shopping mall.

As far as the infrastructure is concerned, it comprises two underground car parks with a capacity for 300 cars and an outdoor park with the same capacity. A petrol station was also built at the complex. Its large spaces and the granite and glass of the lateral façades offer unique aesthetics, transforming it into a reference building in the region in which it is located.

YEAR OF CONSTRUCTION: 2007

TOTAL FLOOR AREA: 26.900 m²
