Design & Build Industrial

This industrial plant, inaugurated by the president of the Portuguese Republic, Prof Aníbal Cavaco Silva, brings together all the technology required for the production of precision optical apparatus, and also provides all the physical conditions associated with the excellent working of the multinational.

With a demanding technological concept and rigorous and unique quality standards, this was a challenge to which Garcia, Garcia responded with a project that is a benchmark of Portuguese industry. In this project, the focus is on the design and construction of the clean rooms, which provide a controlled environment ensuring compliance with all the associated quality and safety standards.
