

GARCIA GARCIA
DESIGN & BUILD

REAL MARBRE

Construction Industrial

Real Marbre entrusted the construction of a new production plant to Garcia Garcia. Located in the Industrial Zone of Neiva, nearby to other production units of the group, this investment will allow the creation of 30 new jobs in the region.

The new building stands out for its differentiated outline and features, excelling in the use of noble stones, such as marble for example.

Conceived as the ex-libris of the building, the façade is marked by a large honeycomb structure, symbolically representing the innovative production process developed by the company.

In functional terms, the building will comprise an administrative and staff block with an area of 1,200m² on two floors, of which 300 m² are intended for a showroom. The production area covers a total area of 3,300 m².

YEAR OF CONSTRUCTION: 2020

TOTAL FLOOR AREA: 4.585 m²

LOCATION: Viana do Castelo

LEAD TIME : 12 Months
